

What are the rental totals for the 5 categories?

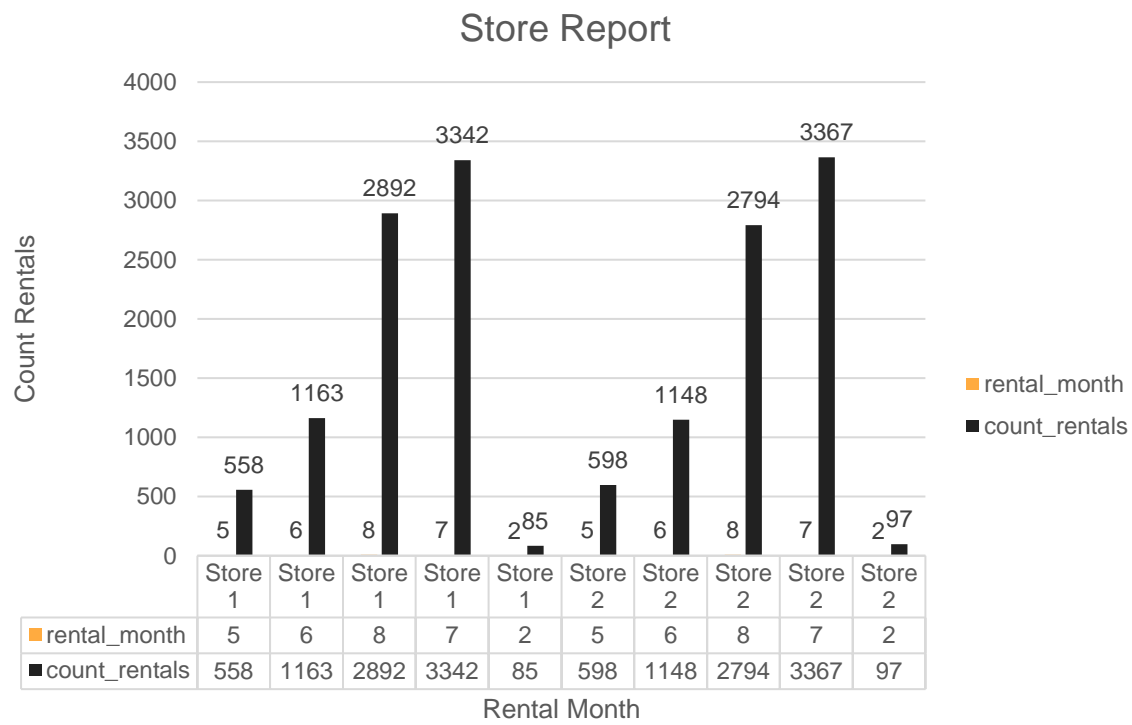

The graph shows the rental totals for the six categories: Animation, Children, Classics, Comedy, Family, and Music. Animation is rented out the most (followed by Family) while Music falls in last place.

Children, Classics, and Comedy fall closely together as far as interest is concerned it seems.

What is the store ID for the store, the year, month, and the number of rental orders each store has fulfilled for that month?

If we look at the chart, we can see that MOST of the movies in Store 1 had the most rentals in

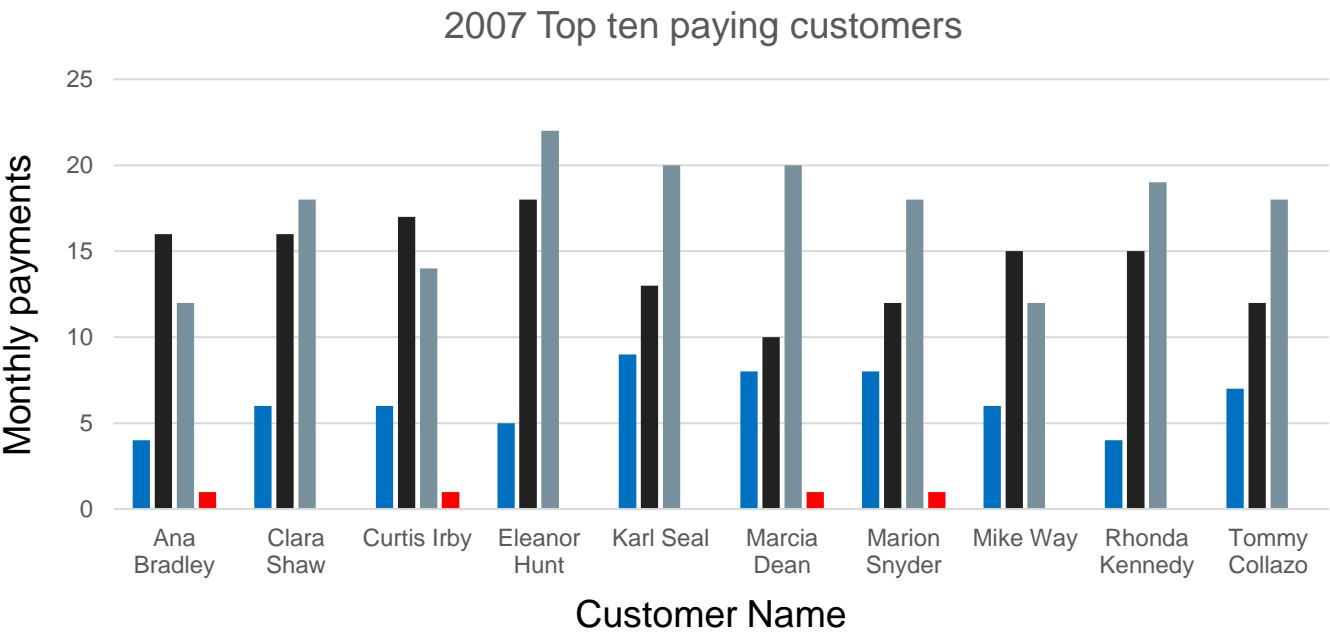

(Sql filename: Udacity SQL submission Project 1 – 2nd new query for qset 2.txt)

Let's compare the family-friendly film category, each of the quartiles, and the corresponding count of movies within each combination of film category for each corresponding rental duration category.

If we look at the chart, we can see that Animation ranks highest in the first quartile but falls a bit shorter in the second quartile, but then regains ground on the 3rd and 4th quartiles. (Sql filename: Udacity SQL submission Project 1 – 3rd query.txt)

Name the top 10 paying customers and what they paid in 2007

Here are the top paying customers in 2007 in alphabetical order.
